

MagFusion Titan

4-in-1 Wireless Charger

Key Selling Points

- **Extraordinary 4 -in-1 Design:** Stands out with its unique 4-in-1 design that integrates wireless charging for 4 devices all in one charging station, which significantly eliminates complex cables and chargers, and therefore simplifies your digital charging lifestyle. The 4 wireless charging plates are all compatible with iPhone and AirPods.
- **Qi2 Certified:** The latest Qi2 standard is so powerful as to deliver faster charging speed, better safety and wider compatibility with more devices, providing ultimate performance for your devices.
- **48W Wired and 15W Wireless Charging:** MagFusion Titan is capable of providing 15W wireless and 48W wired fast charging, for a total of 108W ultra-high power delivery, which should satisfy your daily charging requirements in the office or at home. Wired or wireless, always keep your devices powered up.
- **Strong Magnetic Attraction:** It features strong magnetic attraction with effortless magnetic alignment to ensure your iPhones are always attached to it tightly every time for a fast, efficient, and hassle-free charging experience.
