

# MixFlex 10000

30W 10000mAh PD Power Bank with AC Plug

## Key Benefit

- 2-in-1 Versatility: Experience the fusion of an AC wall charger and a portable power bank. Capable of connecting directly to outlets, eliminating cable clutter. Support pass-through mode for simultaneous charging for your device and power bank, ensuring ultimate convenience at home or on the move.
- Built-in charging cable for dual use: Equipped with a built-in charging cable, the product offers both input and output functionality. This streamlined design not only saves space but also ensures you're always prepared to power up your devices anytime, anywhere.
- Intelligent digital display: The smart digital display screen provides real-time information on the charging status and power levels. With this feature, you can easily monitor the remaining battery life and charging progress, ensuring you're always in control and never caught off guard with a dead battery.

## Bullet Selling Point

- Work as both charger & power bank
- 30W fast charging and recharging
- Pass-through charging
- Built-in USB-C cable for on-the-go charging
- Small current mode
- Digital display for real-time charging status
- Wide compatibility
