AI Multi-Mode Wireless Mouse

M360 AI Connect

M360 AI Connect is a smart multi-mode wireless mouse designed for quiet, flexible and efficient everyday work. The AI key gives you access to a custom AI portal for quick access to your favorite AI tools, or an instant Copilot access. Paired with multi-mode wireless connectivity, multi-device connection and silent clicks, it helps you move faster between tasks while keeping your workspace calm and focused. To top it off, the battery can last for up to 12 months.

► Multi-mode wireless connection

Interference-free wireless options: The smart switch between Bluetooth 5.0 and 2.4 GHz wireless ensures stable wireless transmission with up to 10 meters range and 360° coverage. You can still use your mouse regardless of USB port shortage or the loss of receiver.

► Instantly switch among 2 connected devices

Connect to all your devices: M360 AI Connect automatically pairs the working device. It simultaneously connects to up to 2 devices and easily switches among them. It simplifies complicated cross-platform maneuvers and meets multi-tasking requirements.

► Access your custom AI portal or just Copilot

Smarter work in one click: the dedicated AI key helps you speed up everyday tasks such as searching, writing, summarizing and organizing your work. Customize your own AI workspace with the user-friendly Rapoo AI portal; or simply access Copilot in a press of a button.

► Silent clicks and adjustable DPI control

Quiet and precise: silent clicks reduce noise in shared workspaces, while 7-level DPI adjustment up to 4000 DPI lets you adapt cursor speed to your task. Customizable buttons make shortcuts faster and easier.
