Multi-Mode Wireless Mouse

M680 UltraScroll

M680 UltraScroll is a multi-mode wireless mouse designed for users who want faster navigation, precise control and flexible everyday productivity. The Infinity 4-way scroll wheel makes it easy to move quickly through long pages, documents and spreadsheets, while the additional side scroll wheel gives you smooth horizontal control. Paired with multi-mode wireless connectivity, connection to up to 3 devices, Blue Sensor technology for use on almost any surface, and adjustable DPI, M680 UltraScroll helps you work more efficiently across different devices and workspaces. To top it off, the battery can last for up to 150 days with 1 AA battery.

► Multi-mode wireless connection

Interference-free wireless options: The smart switch between Bluetooth 4.0, 5.0 and 2.4 GHz wireless ensures stable wireless transmission with up to 10 meters range and 360° coverage. You can still use your mouse regardless of USB port shortage or the loss of receiver.

► Instantly switch among 3 connected devices

Connect to all your devices: M680 UltraScroll automatically pairs the working device. It simultaneously connects to up to 3 devices and easily switches among them. It simplifies complicated cross-platform maneuvers and meets multi-tasking requirements.

► Four-way ultra-scroll wheel + side scroll wheel

Scroll faster and navigate more easily: the 4-way ultra-scroll wheel supports fast vertical movement and tilt control, making long documents, websites and spreadsheets easier to handle. Further, the side scroll wheel gives you extra horizontal control, ideal for spreadsheets, timelines and creative workflows.

► Precision on almost any surface

The Blue Sensor works on almost any surface, while 7-level DPI adjustment up to 4800 DPI lets you choose the right speed and accuracy for every task.
