UGREEN Nexode USB-C to USB-C 240W Cable With TFT Smart Display

240W Hyper Fast Charging, One Cable for All, Plug Either Way

Supports PD 3.1 at 240W (48V/5A) to charge laptops and tablets at full speed. The reversible USB-C ends plug in blind—one durable cable replaces all your power cords.

Vivid Display Shows Real- Time Power, See Your Charge Speed

A 0.48" TFT color screen clearly presents voltage, current, and wattage in real time. No more guessing—you're always in control of charging status and device safety.

Glowing Color Cues, Know Fast or Slow at a Glance

The light frame changes color by wattage: green for trickle charge, blue- green for standard, red- orange for fast. Just a side glance tells you how quickly your device is charging.

Aluminum & Braided Build, Rugged Details for Daily Use

Aluminum alloy connectors and nylon braided cable resist bending and tangling. Available in 1m or 2m, with a touch button to flip screen orientation—built to last and easy to use.
