Qi2.2 25W Magnetic wireless fast charging

Effective and fast charging experience, top up your iPhone 17 Pro Max to 50% around 30 mins using a PD 45W or higher charger and a 60W CC cable.

Triple Cooling System: Integrated cooling & heat dissipation

Active thermal reduction via TEC semiconductor AirJet Cooling system;
Silent turbo fan and ultra-slim glass magnetic pad bring superior cooling efficiency, maintaining optimal temperatures to preserve battery health.

Premium Operation Experience

Automatically activates airflow cooling upon magnetic attachment; alternatively, manually toggle the cooling function by long-pressing the button.

Strong Magnetic Attachment while Easy to Grab

Using Apple's same standard magnets (16 *N48H) , high temperature resistant, long time use without falling out of magnetism , around 8N strong suction force.

Premium feel, easy and reliable to use

Premium build quality with a silver painted finish, delivering a convenient and reliable user experience.
