Audio Pro C20 W WiFi Wireless Multiroom Speaker - AirPlay2 - Google Cast - Spotify Connect - Bluetooth - HiFi - Powered by Linkplay.

COLOURS: BLACK, WHITE, GREY, WALNUT

Rock your music, boost your TV.

SHORT DESCRIPTION

This multiroom stereo speaker is the right choice when you want one compact solution to meet almost all needs. When you need a speaker to perform extraordinarily well for watching TV as well as listening to your favourite music, this is the optimal speaker to perform both tasks in a powerful way. C20 W offers multiroom listening via an app based on Linkplay's latest technology, as well as the option of Google Cast, AirPlay 2.

USPs

- Great sound quality for both music and movies.
- Multiroom speaker with an app powered by Linkplay.
- Excellent TV-compatibility with ARC

LONG DESCRIPTION

This multiroom stereo speaker is the obvious choice when you need a speaker that works equally well when watching movies on your TV as listening to music. You do not need to have two different systems- the C20 W will take care of both tasks for you, in one single compact solution.

With an impressive total power of 190 W, you will experience both demanding movie sound effects and dynamic music tracks to the fullest, feeling the impact throughout your whole body. The speaker delivers a rich and full bodied HiFi experience, with powerful and heavy bass to get the party started. When connecting to a TV we use ARC for easy control from the TV remote.

C20 W offers multiroom listening via an app based on Linkplay's latest technology, as well as the option of Google Cast, AirPlay 2, Spotify Connect and Tidal Connect, and an even greater sound than its predecessor C20. The loudspeaker firmware together with the new Audio Pro app, both powered by Linkplay, offer EQ and Wi-Fi timing synchronization, and access to a wide range of streaming services. Both will be updated regularly, the app via your mobile device's app store, while firmware updates are managed automatically over-the-air, directly by the speaker. This speaker has an RIAA amplifier built in, meaning you are able to play music from your turntable directly on the speaker, without the need for a separate preamplifier. You are also able to stream music to other Audio Pro speakers you have connected to a multiroom system.

The wooden cabinet painted in either soft satin white, stylish grey or classic black blends in naturally with your home. You also have the option of an exclusive walnut veneer. The fabric front is fixed by magnets and can be easily removed for a more modern look, if this is your preferred design.

6 presets give you easy access to your favourite playlists and radio stations. Simply store your lists and stations to these convenient buttons. No need to use the app, just push and play.

Streaming services available: Amazon Music, Deezer, iHeart Radio, Napster, Qobuz, QQ Music, Spotify, Tidal, TuneIn, VTuner and many more via Google Cast and AirPlay 2.

THE W-GENERATION

This product is part of the new W-generation of Audio Pro products, which means you get even better sound, a new user-friendly app and a refined and harmonized design. Our new app is based on Linkplay's latest technology, and offers an EQ, new streaming services and many more appealing features.
