SOUND OF SCANDINAVIA

**AUDIO PRO A38 W WiFi Wireless Multiroom home entertainment stereo floorstanding speakers - AirPlay2 - Google Cast - Spotify Connect - Bluetooth - HiFi - Powered by Linkplay.**

COLOURS: BLACK, WHITE

## Your home entertainment hub for TV and music.

### SHORT DESCRIPTION

This multiroom active stereo speaker set will offer you astonishing music and TV sound experience surpassing the one of soundbars due to the bigger soundstage that a stereo pair of speakers provides. The A38 W is the new, improved version of A38. It offers an app based on Linkplay's latest technology, and an even greater sound than its predecessor.

### USPs

- Multiroom speaker with an app powered by Linkplay.
- Excellent TV-compatibility
- 5 presets

### LONG DESCRIPTION

This active multiroom stereo speaker set will offer you astonishing music and TV sound experience surpassing the one of soundbars due to the bigger soundstage that a stereo pair of speakers provides. The A38 W is the new, improved version of A38. It offers an app based on Linkplay's latest technology, as well as the option of AirPlay 2 and Google Cast. The loudspeaker firmware together with the new Audio Pro app, both powered by Linkplay, offer EQ and Wi-Fi timing synchronization, and access to a wide range of streaming services. Both will be updated regularly, the app via your mobile device's app store, while firmware updates are managed automatically over-the-air, directly by the speaker. It also supplies you with an even greater sound than its predecessor.

With this speaker you can take total control of your home entertainment. When connecting to a TV we use ARC for easy control from the TV remote. Stream music from the major streaming providers via WiFi or Bluetooth. Connect your digital source through the optical input and your analog source to the RCA input. Everything is controlled by Audio Pro's app, powered by Linkplay, or the enclosed remote control. Use the 5 presets for easy access to your stored radio stations or playlists.

The MDF cabinet painted in stylish white or black, blends in naturally with your home. The fabric fronts are fixed by magnets and can be easily removed for a more modern look, if this is your preferred design.

Due to its size the A38 W delivers an even bigger sound experience than its sibling the A28 W. The larger cabinet with its twin woofers will give you that extra punch of deep bass. With its small footprint, it fits nicely on the floor next to the TV.

Streaming services available: Amazon Music, Deezer, iHeart Radio, Napster, Qobuz, QQ Music, Spotify, Tidal, TuneIn, VTuner and many more via Google Cast and AirPlay 2.

### THE W-GENERATION

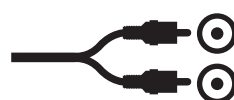

This product is part of the new W-generation of Audio Pro products, which means you get even better sound, a new user-friendly app and a refined and harmonized design. Our new app is based on Linkplay's latest technology, and offers an EQ, new streaming services and many more appealing features.
