

1	Picture	   
2	Item NO.	FWP-SB-009
3	Color	Black
4	Summary overview	<p>1. <b>CCT:</b> Stepless + 4 modes CCT,(3000K-4000K-5000K-6000K)  <b>Dimmable:</b> Stepless + 5 levels dimmable  2. <b>Patent design,</b> Have applied for the US invention patent for clip and the Chinese utility model patent.  3. <b>Professional optical design</b> - 45°Angle light,only lighting up the keyboards and working area, reduce screen reflection;No glare, no troboscopic, no visible ghosting, more focused  4. <b>Two Control way, convinient to operation,</b> With 4 smart Touch button. and with Remote control the light  5. <b>Eye protection and anti glare</b> - with 88 high-quality LED beads, emitting evenly and softly; No light direct hitting your eyes as you won't see the LEDs, Ideal choice for children, students, and office staff, professional gaming players , Designer , engineer, Host etc.  6. <b>Wide compatibility,</b>Equipped with a multifunctional screen clip and patented utility model technology ,US Invention Patent.  7. <b>Space saving</b> . Just installation on the Computer , Don't take up the desk space . Make desk be more clean and orderly.</p>
5	Selling points	<p>(1) 5W ,Ra95, RG0 ,LUMEN: close to full spectrum ,275lm; with 3014 SMD88PCS( 44+44)  (2) Dimmable: 5 levels + 5%-100% Stepless DIM, Also control by Remote ,(Luxury Remote-Double rotary remote control switch)  (3) CCT Change: 4 modes color temperature, 3000K / 4000K / 5000K / 6500K +Stepless CCT Also control by Remote (Luxury Remote-Double rotary remote control switch)  (4) Remote control: The lampshade is controlled by a 4-key switch, and all functions can also be remotely controlled,  (5)Light sensor function:The light intensity will changed automatically according to the environment (Especially in dark environments, when the function is turned on, the light will gradually reach its maximum brightness within 7-8 seconds)  (6) Asymmetric Optics: Illumination Angle 45 ° Asymmetric Design , Professional Anti dizziness Patent Technology  (7) Multi model matching: Suitable for various thicknesses and irregular display screens, especially curved screens with the best fit (27-34 "1000R curvature display screen  (8) Power off memory: intelligent memory, fast recovery when powered on  (9) USB-TYPE C charging: 1.8-meter USB-TYPE C cable, connection easily,TYPE C in L Shape  <b>(9) Compatible with installing external cameras (see picture below)</b></p>
6	Specification	<p>(1) High RA &gt;95  (2) Dimmable: 5 levels + 5%-100% Stepless DIM , 44+44=88PCS 3014 SMD Chip , RA95-97  (3) CCT: 3000K / 4000K / 5000K / 6500K +Stepless CCT  (4) Touch switch: ON/OFF &amp; light sensor &amp; CCT&amp; Dimmable  (5)Power-off memory:  When repowered the light,it resume your last used brightness and color settings - no need to reset  (6) Power supply : 5V-1A USB-TypeC connection, 2CM , no knots at all )  (7) Material: Aluminum alloy, PC/ABS  (8) Size if kano : 45cm×2.8cm (light bar)  (9) packing: 42*32*4.7cm</p>

Compatible with installing external cameras
