

MagLink Freeze

MagSafe Wireless Charging Phone Mount with Semiconductor Cooling System

Active cooling system

Compatible with iPhone MagSafe

Secure

360° ball joint

Key Benefit

- **Efficient Active Cooling System:** The revolutionary semiconductor cooling system is engineered to effectively reduce the temperature of your phone by up to a maximum of 25 degrees Celsius, reducing the risk of damage from overheating when being charged inside a car.
- **MagSafe Compatible:** The MagSafe magnetic charging system allows for fast charging of iPhones at 7.5W. The magnetic provides 1.4 kg force, ensures a secure and stable connection, providing a consistent and reliable charging experience.
- **Secure and Stable:** The expandable foot on the car phone mount provides added stability and support for the device, ensuring that it stays securely in place while driving. This reduces the risk of the device falling or sliding off the mount during use.

Bullet Selling Point

- Semiconductor active cooling system
- MagSafe compatible
- 1.4 kg magnet force
- Fast wireless charge iPhone at 7.5W, Android phone at 15W
- Secure expandable foot design
- 360 degree ball joint
- Super quiet cooling fan

Product Information

- Model Number: HD-M12
- UPC: 689323786237
- SKU: LLTSN1044555
- Package Dimensions: 103 x 166 x 50mm
- Expected Arrival Time: Ready
- MSRP: \$39.99

Note: Actual MSRP may vary depends on marketplace, Product specification may change without prior notice
