

SL-680024-RRBK

DECUS NX RGB Gaming Mouse, rubber-black

Gaming at the highest level with the Speedlink DECUS NX RGB gaming mouse. This powerful mouse with stylish lighting offers everything you need for precise and responsive gaming. With 6 buttons and 2 dpi switches that enable lightning-fast adjustment of the sensor resolution (configurable from 200 to 12,800dpi in 6 steps), every situation is under control. The multi-coloured and configurable RGB lighting sets individual accents. The lighting can be configured via the software or switched to different modes using a button on the underside. The rubberised surface and ergonomic shape of the mouse ensure optimum grip and prevent slipping during heated battles. With a customisable polling rate of up to 1000Hz and a maximum sensor acceleration of 20g, maximum performance is offered. A tracking speed of up to 60ips ensures precision. The configuration software allows macros to be defined, key assignments to be customised and various profiles to be saved. The braided cable with a length of 1.8 metres offers flexibility and durability.

## Features

- Gaming mouse with 6 buttons + 2 dpi switches
- Multicolour configurable RGB lighting with various modes (can also be switched off)
- Rubberised surface for optimum grip
- Fabric-covered cable
- Sensor resolution: 200 to 12.800dpi (real) with configurable dpi levels
